Group of Fractional Currency

A Group of Fractional Currency, consisting of the following: 3c, 5c (3), 10c (15), 15c, 25c (10), 50c (6). The notes range from Fair to Uncirculated, the average will be Very Fine. This is **not** a "junk" lot. There are many very scarce items with all of the 5 issues being represented. A total of 36 pieces.

An interesting lot of extremely scarce Civil War era philatelic and numismatic material. During the Civil War, when there was a shortage of hard money, postage stamps were used for currency. In consequence the idea of enclosing them in envelopes was evolved. Stamps to the amount indicated on the envelopes were enclosed, and the envelopes with their enclosures were then used for currency, thus preserving the stamps from disintegration by handling. These envelopes are seldom seen, and it is unlikely that another lot as extensive as this will ever turn up. The envelopes were made by various envelope manufacturers of the time, with advertising. They are very small, smaller than the average pay envelope in use today. The backs of some have been removed showing just the front with the printing and advertising. 21 pieces.
